Program Title:	North Maluku Emergency Response (NMER)
Cooperative Agreement/Grant No:	497-G-00-00-00024-00
Country /Region (s):	North Maluku (Ternate and North Halmahera), Indonesia
Disaster/Hazard:	Disaster Relief
Time Period covered by this report:	May 2000 to April 2001

The widespread destruction in North Maluku has left thousands of IDPs without food, shelter, and clothing. In February 2000, World Vision conducted a rapid assessment survey on IDPs needs. In that assessment, World Vision identified immediate emergency assistance needs as food, non-food items and medical care. With OFDA funding, World Vision's North Maluku Emergency Response Program distributed household items in the province and assisted a total of 12,129 displaced families.

**Program Goal:** To ensure that vulnerable households in North Maluku are provided with relief supplies that combat malnutrition and maintain adequate standards of health, until such time as the IDPs can be reintegrated or resettled to permanent locations.

**Objective:** To provide emergency non-food household items to 11,500 displaced families.

This objective was successfully achieved with a total of 12,129 households benefitting from distribution of tarps/plastic shelters, soap, plates, pots, utensils, sleeping mats, blankets, buckets, sanitary napkins, and sarongs.

There were serious problems with instability which affected logistics, and commodity delivery to the site during the implementation of the program. However, with the full commitment and experience of field staffs, IDPs critical needs, and World Vision neutral position the project was well run.

Indicator and Current measure:

- ❖ Number or percentage of people in the target population receiving basic shelter and other non-food items within acceptable time frame
- ❖ Number or percentage of people in the target population under shelter

## **II. PROGRAM OVERVIEW**

As outlined in the proposal, the goal of North Maluku Emergency Response (NMER) was to ensure that vulnerable households in North Maluku are provided with relief provisions that combat malnutrition and maintain adequate standards of health until such time as the IDPs can be re-integrated or resettled to permanent locations.

The North Maluku Emergency Response (NMER) operated on the east coast of North Halmahera. It included Ternate, Kao, Tobelo, Wasile, Galela, and Morotai. A complete list of distribution centers is provided in Appendix I.

The project objective, as outlined in the proposal, was to provide emergency non-food household items to 11,500 displaced families.

The target population of the OFDA family and hygiene kit was IDPs who have been displaced by the conflict in North Maluku. Based on WV's initial assessment, there were an estimated 18,477 displaced families (92,385 people) in World Vision's operating area. The IDPs lived with host families or in temporary settlements such as former hotels, motels, warehouses, schools, tents, bus stations, markets, barracks, churches, government buildings, and health facilities. Out of 18,477 families, the North Maluku Emergency Response's objective targeted 11,500 families. Beneficiaries were chosen according to the following criteria:

- ❖ Located in World Vision's working of area (Ternate, Jailolo, Kao, and Tobelo)
- ❖ Lack food, clean water, shelter, and health care
- ❖ Not involve in other food aid program

Proposed	Actual
IDPs who have been displaced by the conflict in North Maluku	Same
Live in Ternate, Jailolo, Kao, and Tobelo	Ternate, Kao, Tobelo, Wasile, and Morotai. IDPs in Jailolo were not included due to avoid overlapping with Action Contre Faim (ACF), an international NGO who works in that area. Wasile and Morotai were added since both areas were located in World Vision's working area.
Lack of food, clean water, shelter and health care	Same
Do not involve in other food aid program	Same

During its program, World Vision wanted to contribute to the cooling down process of the conflict and established a position of neutrality within North Maluku. In order to do this, World Vision had to ensure that assistance was being provided equally to both Muslim and Christian areas. Tobelo and Ternate were both large safe havens for Christians and Muslims where distributions were done in both areas. OFDA funds were used primarily in Tobelo, while other donor funded distribution in Ternate.

Based on the meeting with government and TNI, it was decided that World Vision would work on the east coast of North Halmahera, while ACF worked on the west coast. This division of labor was aimed to avoiding any overlapping, facilitate coordination among NGOs, and minimize jealousy within IDPs.

Based on the rapid assessment survey conducted in February 2000, World Vision identified IDPs critical needs as the following:

- ❖ Non-food household items
- ❖ Food
- ❖ Medical care

**WORLD VISION INDONESIA**  
**NMER FINAL REPORT**

In response to this situation, the government and Indonesian Red Cross (PMI) made an effort to address the needs of the IDP population. However due to their limitations, the government requested NGO assistance. To avoid a likely humanitarian emergency, World Vision used OFDA funds to distribute non-food household items, while other donors funded health training and food distribution. The non-food household items including:

- ❖ Family kits
- ❖ Tarps/plastic shelters
- ❖ Hygiene kits

### III. PROGRAM PERFORMANCE

#### A. Performance Versus Objective

The objective of the project was to provide emergency non-food household items to 11,500 displaced families in North Maluku. Using an OFDA-funding, the project distributed family kits, hygiene kits, and tarps/plastic shelters.

Table 1. Targeted beneficiary:

<b>Proposed</b>	11,500 HH
<b>Actual</b>	12,129 HH

Table 2. Items of family kits, tarps/plastic shelters and hygiene kits distributed:

Item	Per family	Ration Unit	Totals
<b>Shelter</b>			
Tarps/plastic shelters	1	Individual unit	3,949
<b>Family Kit</b>			
Pot	1	Individual unit	9,982
Plate	5	Individual unit	50,261
Spoon	5	Individual unit	50,501
Cup	5	Individual unit	50,416
Bucket	1	Individual unit	12,129
Wool Blanket	2	Individual unit	19,949
Saroong	2	Individual unit	19,983
Sleeping mat	2	Individual unit	20,039
<b>Hygiene kit</b>			
Sanitary Towel	6	Pack of 10	120,114
Bath soap	3	80 gram bar	253,618
Laundry soap	5	210 gram bar	99,765

The family kit items arrived in two period of time, May and August 2000. First period in May 2000, arrived a total of 1,398 pots and 2,800 sleeping mats, which has been distributed by the team started on June 18, 2000, with a ration of 1 pot and 2 sleeping mats. The distribution was aimed at IDPs suffering from the Duma conflict.

During the second period, the shipment brought in 20,060 saroongs, 17,180 sleeping mats, 18,624 blankets, 8,592 pots, 9,990 buckets, 50,400 plastic dishes, 3,931 plastic shelters, 138,816 bath soaps, 88,416 laundry soaps, and 76,232 sanitary napkins. These items were distributed to IDPs located in Ternate, Tobelo, Kao, Wasile and Morotai sub-district. Table 3 outlines the types of beneficiaries receiving assistance.

## Table 3. Number of Beneficiaries per items

Family kit items	Beneficiaries				
	Men	Women	Children	HH	Total
Saroong	18,125	17,145	5,546	9,993	40,816
Blanket	18,125	17,145	5,546	9,993	40,816
Pot	18,793	18,035	5,689	10,471	42,901
Bucket	18,716	17,790	5,546	12,129	42,052
Plastic dish	18,424	17,196	5,546	10,343	41,166
Spoon	18,424	17,196	5,546	10,343	41,166
Cups	18,424	17,196	5,546	10,343	41,166
Sleeping Mat	19,184	18,344	5,776	10,647	43,668
Tarps/Plastic shelter	6,546	6,093	1,776	3,544	14,415

Family kit items	Beneficiaries				
	Men	Women	Children	HH	Total
Bath soap	61,322	58,792	8,544	28,242	128,658
Laundry soap	82,542	78,399	17,571	41,229	178,512
Sanitary Napkin		54,237			54,237

\* Total recipient for hygiene kits distribution is cumulative of 3 circles of distribution

During the implementation of North Maluku Emergency Response (NMER), some variances occurred:

- ❖ Even though World Vision intended Galela as a beneficiary area, the Galela community banned all NGOs from entering the area due to high tension between TNI and the local community.
- ❖ In the middle of March 2000, DEPSOS (Social Department) distributed family kit packets to 30,122 HH IDPs in Ternate. To avoid duplication, the WV team removed Ternate from the family kit distribution list. However, the team continued to distribute hygiene kit to IDPs in Ternate.
- ❖ The family kits were distributed once during the whole program, while the hygiene kits were distributed every 2 months for the duration of the project. The rations were as follows:
  - Bath soap: 2 bar/person/2 months
  - Laundry soap (household with 4 people or less): 2 bars/family/2 months  
(household with more than 4 people): 3 bars/family/2 months
  - Sanitary Napkin: 4 packs/woman/2 months
- ❖ The family kit items did not arrive all at the same time. They came individually starting in May to August 2000. In June and July only sleeping mats and pots had arrived. On June 19, 2000, there was an attack in Duma, a village in Galela district. The tragedy brutally killing approximately 116 children, women and men, which led to the displacement of hundreds of people from Duma to Tobelo. In response to this, World Vision distributed cooking pots, sleeping mats, and rice to these 448 IDPs. However, all shipment to Tobelo were canceled until July due to the possibility of Tobelo mounting a revenge attack on Galela

The beneficiaries receiving assistance totalled 12,129 IDP households, 5.46% more than the proposed number. From that number, an estimated 9,993 families received complete family kits and hygiene kits, and 29.2 % received tarps/plastic shelters. Approximately 5% of families received incomplete kits due to external factors such as commodity loss and damage. In addition, the commodities were distributed appropriately. The non-food household items were distributed to the most vulnerable households, as per the project proposal.

The following paragraphs describe in details the distribution of specific commodities. Supporting documentations of commodity and recipient status report, finance report, and photographs of the commodities and distributions are available in Appendix 2,3,4, and 5.

**WORLD VISION INDONESIA**  
**NMER FINAL REPORT**

### **Family Kits**

Due to external factors such as commodity loss and damage, not all kits distributed were complete. Table 4 indicates the amount of each commodity distributed to beneficiaries. A total of 12,129 families received a household kit of which an estimated 9,993 were complete and 2,136 were partially complete.

Table 4. Compilation of family kit and tarp/plastic shelter commodities distribution March 2000 – April 2001

<b>Item</b>	<b># distributed</b>	<b># recipient households</b>	<b># beneficiaries</b>
Sarong	19,983	9,993	40,816
Sleeping mat	20,039	10,647	43,688
Blanket/towel	19,949	9,993	40,816
Plastic spoon	50,501	10,343	41,166
Plastic cup	50,416	10,343	41,166
Plastic plate	50,261	10,343	41,166
Bucket	12,079	12,129	42,052
Pot	9,982	10,471	42,901
Tarp	3,949	3,544	14,415

### **Tarps/plastic shelters**

The tarps/plastic shelters arrived at the project site in August 2000. Distribution of these began in September 2000. A total of 3,949 tarps/plastic shelters were distributed to 3,544 families. It succeed sheltered an estimated of 14,415 people. In distributing tarps/plastic shelters, World Vision focused aid on IDPs who did not stay in the host family. World Vision food monitors visited IDP camps to assess need. A temporary structure was necessary but with no roof. No tarps/plastic shelters were distributed for repairs to existing roofs.

Tarps/plastic shelters were distributed separately from family kits. The distribution of tarps/plastic shelters started in September 2000, first targeting IDPs from Galela and Morotai who did not live with host families (live in camps):

- ❖ In September 2000, the team distributed tarps/plastic shelters to IDPs from Galela and Morotai in Tobelo, Morotai, and Wasile sub-district.
- ❖ From October 2000 to March 2001, tarps/plastic shelters were distributed in Tobelo and Kao to IDPs not residing with a host family.

### **Hygiene Kits**

The targeted IDP population received laundry, bath soap and sanitary napkins. The hygiene kit was distributed every two months. Each person in an IDPs family received 2 bars of bath soaps per two months. The laundry soap was distributed in different ration based on the number of family members. Families with fewer than 5 members received 2 laundry soaps per 2 month. Families with more than 4 members received 3 laundry soaps every 2 months. Every two months, four packages of ten sanitary napkins were distributed to each female beneficiary aged 15-54 years.

Table 5. Compilation of hygiene kit commodities distribution March 2000 – April 2001

<b>Item</b>	<b># Distributed</b>	<b># Recipient households</b>	<b># Beneficiaries</b>
Laundry soap	99,644	41,229	178,512
Bath soap	253,571	28,242	128,658
Sanitary Napkin	120,114		54,237

Through direct observation, the commodity warehouses were well organized. All commodities were stored on pallets. Each commodity was stored separately with a separate commodity-tracking list for each type. The distributions were done efficiently and effectively. The staff members also conducted observations during the 'post distribution' period and observed IDPs using the distributed household commodities.

## **C. Unforeseen Circumstances that Challenged Original Assumptions**

During the implementation of the North Maluku Emergency Response (NMER), the project staff faced several external factors that affected the original project assumptions. Those internal factors were as follows:

### **❖ Logistics**

Logistics in North Maluku proved problematic due to Muslim-Christian barriers. Obtaining ships to transport commodities to World Vision target locations was especially difficult. Boat owners and crewmembers refused to enter specific areas due to security risks. A Muslim crew will not enter a Christian area and a Christian crew will not enter a Muslim area because the fear of attacking. Since World Vision is working in both Muslim and Christian areas, this has become a major problem. World Vision found it difficult to obtain boats willing to transport commodities from Ternate to Tobelo or vice versa. Another problem with the local boats was that most of them had been involved in the conflict. Some boats were used to transport Muslim or Christian attackers to certain areas, so these boats were no longer welcomed in these areas and would be attacked if they entered.

The breakout of clashes between the Red (Christian) and White (Muslim) army between March and June reinforced boat owners' attitudes about not entering certain areas. The fighting and resulting rumors concerning future retaliatory attacks basically caused a halt to boat travel.

### **❖ Lack of Access**

In February 2000, WV attempted to gain access to North Halmahera in order to conduct an assessment in Tobelo and Kao. With each attempt, an obstacle appeared at the last minute, forcing the cancellation of the assessment. The military stated that the situation was too dangerous to conduct an assessment, or that there was no need for food assistance in these areas so as to prevent International NGOs from conducting independent assessments. Progress was made when WV was invited to accompany the Sector Commander to Kao, Morotai, and Galela in order to conduct assessments to determine the need for food.

### **❖ Security Unstable**

Sporadic fighting between red and white soldiers, which would escalate and dissipate within hours, made the situation in Tobelo and Galela area very unpredictable. As a result, staff were evacuated to Kao, and then later transported to Manado by an airplane. The activity was postponed and scheduled to start again when the situation cooled down.
